

APPLICATION PRODUCT MANAGER (60–80%)

YAAY's application product manager is a time traveller between unknown horizons and daily work with clients. Do you love to think of new business ideas and hack them into quick and dirty testable prototypes? Endurance, critical thinking and flexibility for new inputs are pounding in your peaceful mind? Well then you know that successful products are not a result of 5 min genius ideas but of long carefully done preparations and learnings out of failures.

WE ARE CURRENTLY LOOKING FOR A
FORWARD-THINKING APPLICATION PRODUCT
MANAGER WHO

- is fluent in German (written and spoken)
- is excited to bring our visualization products to their target audience
- is aware that 60 % of the job is maintenance and requirements management
- feels comfortable in a fast paced environment
- has a strong sense for agile project management
- can define and analyse metrics that inform the success of products
- loves information and numbers and the field of design
- the job position starts earliest by April 2017

WHO IS YAAY

We are an information design agency based in Basel. YAAY's aim is to simplify, consolidate and restructure complex information with a creative, thoughtful and attractive design approach. We provide comprehensive, long-lasting and information-oriented communication solutions. We continuously explore and develop new forms of design by analyzing, structuring and contextualizing data. Through an aesthetically well-wrought design it is possible to create experiences that visualize complex information and make it tangible and holistic – either analog or digital.

HOW TO APPLY

Please send your application to yaay@yaay.ch and attach your online portfolio of past projects in German or English. If you have a complete CV in XING or LinkedIn you don't need to make an effort to create a PDF CV. Please also send us your medium.com/github username or other application relevant links until 17.03.17.

If you don't have any of this? All of us have started once from scratch. Feel free to try it and maybe we can turn this position into an internship.
